ABOUT ME

Currently pursuing an engineering degree, I am a final-year Computer Science Engineering student specializing in Data Science and AI. Passionate about artificial intelligence, data, and algorithms, I bring strong technical expertise and analytical problem-solving skills. I am seeking a 6-month internship to advance my career by contributing to innovative, data-driven projects and impactful technological solutions.

EDUCATION

- **Engineering Cycle in Computer Science** – Specialization in Data Science & Artificial Intelligence, ESPRIT, Monastir, 2023 – Present
- **Bachelor's Degree in Management Information Systems**, FSEG Nabeul (3 years)

PROFESSIONAL EXPERIENCE

Madinah Innovators – Tunis – Automation & AI Internship

July 2025 – August 2025

- Designed and implemented an HR chatbot scenario using Make.com to automate employee requests in Slack.
- Built and managed a centralized database in Airtable to store and retrieve employee information efficiently.
- Automated HR tasks including leave tracking, payslip access, and policy sharing to provide instant, self-service support.

Dnext – Sousse – Data Analysis Intern

June 2024 – August 2024

- Correlation between NDVI/EVI and agricultural yield
- Analysis and predictive modeling
- Data visualization for decision-making

Henkel Alki – Tunis – Data Analysis

November 2021 – May 2023

- Creation and structuring of databases to support decision-making
- Business data analysis and development of visual reports
- Support for internal communication through interactive dashboards

Amen Bank – Tunis – Mobile Development Intern

July 2021 – November 2021

- Development of a mobile application for credit management.

INS – Tunis – Web Development Intern (Final Year Project)

January 2020 – July 2020

- Development of an application for managing information and automatic statistical requests.

Tunisie Télécom – Tunis – Mobile Development Intern

July 2018 – September 2018

- Development of a network design application.

ACADEMIC PROJECTS

Skills-Based CV Platform (Final Year Project)

- Designed and developed a web-based platform for analyzing and rating CVs.
- Implemented a scoring algorithm to evaluate resumes based on skills, education, and experience.
- Built a recommendation engine that suggests improvements to candidates for enhancing their profiles.
- Developed a modern and responsive front-end using ReactJS for a smooth user experience.

Fake News Detection

- Development of a supervised classification model to identify fake news online. Use of machine learning algorithms (XGBoost, AdaBoost, Random Forest) for training, integration with a Flask API, and testing of endpoints using Postman to ensure interoperability.

Web scraping of LinkedIn profiles

- Automated data extraction and storage using MongoDB.

Brain MRI Classification

- Medical image classification project for tumor detection, using pre-trained models such as EfficientNetB3 as well as custom CNN architectures.

Medical Tourism Agency Application (Final Year Project)

- Developed a medical tourism service management application accessible via both web and desktop platforms, using Laravel, MySQL, HTML, JavaScript, CSS, JavaFX, IntelliJ, and Scene Builder.

CERTIFICATES

- Fundamentals of Deep Learning – NVIDIA
 - AI for Predictive Maintenance – NVIDIA
 - Foundations of Industry 4.0 – NOVATION CITY
 - Scrum Methodology
 - Generative AI Explained – NVIDIA
-

SKILLS

- **Languages:** Python, Java, PHP, JavaScript, HTML, CSS
 - **Frameworks:** Flask, FastAPI, Laravel, ReactJS, JavaFX, Spring Boot
 - **Databases / Tools:** MySQL, MongoDB, NoSql, Airtable, Git, GitHub, Postman, IntelliJ
 - **Web & API:** Full-Stack Development, REST APIs, integration with React & Flask/FastAPI
 - **AI & ML:** XGBoost, Random Forest, CNN, EfficientNetB3, image processing, Automation(Make.com), AI Agent System
- Others:** Web scraping (Selenium, BeautifulSoup), recommendation systems, project management
-

COMMUNITY INVOLVEMENT

- Head of Training & Workshops – Data Science Club, ESPRIT
 - Head of Communications – Microsoft Club, FSEG
-

LANGUAGES

- French: Intermediate
- English: Intermediate
- Arabic: Fluent
